

Seok (Daniel) Kim

Yonsei University, Seoul, Republic of Korea
daniell1kim@yonsei.ac.kr — LinkedIn — github.com/danielkim-ai

Education

Yonsei University Seoul, Korea
B.S. in Computer Science & Applied Statistics *Expected Graduation: 2027*
• **Key Coursework:** Reinforcement Learning, AI Systems, Machine Learning, Mathematical Statistics, **Convex Optimisation**, Stochastic Processes, Differential Privacy, Distributed Learning, Mathematics for Deep Learning, Sampling Theory, High-dimensional Data Analysis.

Technical Skills

- **Programming Languages:** Python (PyTorch), R, C/C++, Java, SQL, $\text{\LaTeX}$ (Advanced).
- **Frameworks & Tools:** PyTorch, Ray RLlib, Gymnasium, GPyTorch, YOLOX, DeepSORT, ByteTrack, Git.
- **Certificates:** SQL Developer (SQLD), Advanced Data Analytics Semi-Professional (ADsP).

Research & Capstone Experience

AI-ISL (Information Systems Laboratory), Yonsei University 2025 Dec – 2026 Mar
Undergraduate Research Assistant (Advised by Prof. Albert No)

- Contributing to the “**Preserve then Quantise (PTQ)**” project; investigating information-theoretic bounds to preserve the distributional properties of model weights during post-training quantisation.

Optimising Contextual Sentence Prediction for AI-Assisted Authoring (Episod) 2025 Jul – 2025 Dec
Lead Evaluator

- Developed LLM-as-judge rubrics for Gemini-2.5 to quantify coherence and creativity in long-form writing; conducted scoring calibration using 110+ structured test cases.

Selected Projects

Stability of Bayesian-SAC under Non-Stationary Reward Scaling 2026 Mar
Implementation of Gaussian Process (GP) surrogates for adaptive entropy control in SAC.

- Mitigated catastrophic policy collapse via **GPyTorch** and **Ray RLlib**; achieved 40% variance reduction.

Academic Activities & Achievements

- **Yonsei AI Club (YAI):** Best Academic Member (2023 Jan); **Student Mentor** (2025–Present) – Awarded Best Academic Group (2026 Mar).
- **Samsung AI Challenge 2025:** Award Nominee for Co-Scientist Challenge (A2A Track).

Extracurricular Activities

Republic of Korea Air Force (R.O.K.A.F.) (Sergeant) Jul 2023 – Jan 2025
Squad Leader Oct 2023 – Nov 2024

- Orchestrated mission readiness and personnel scheduling for a high-responsibility unit for over 13 months.
- Managed complex logistics and crisis response operations, fostering collaborative excellence in a high-stakes environment.

Student Council, Department of Computer Science - Yonsei University 2020–2022
Member, Marketing Team & Task Force Groups — Aug 2020 – Dec 2021

- Designed digital promotional materials (posters, card news) for student events using **Adobe Photoshop** and **Illustrator**.
- Contributed to the **CS Major Guidebook TF**, compiling academic and career guidance for undergraduates
- Participated in the **Student Council Regulation TF**, drafting and revising operational policies for the council.
- Collaborated with multidisciplinary teams to enhance communication between faculty and students.

Languages

- **English:** Fluent (C1/C2 Standard). Advanced technical discussion experience with the **OpenAI GTM team**.
- **Others:** Native Korean; Conversational Japanese; German (A2); Spanish (A1); Chinese (Elementary).
